Problem 9.2

Internet Explorer 11 clashes or gets blocked on every second visit of example.com.
===

Description:
- - - - - - - -

Internet Explorer 11 (Version: 11.0.10240.16384, Window 10 Version 1511) crashes or gets blocked every other time I visit or reload example.com. This issue is not observed with any other website in Internet Explorer 11 (Version: 11.0.10240.16384, Window 10 Version 1511)

Exceptions:

The bug disappears in the following cases:

* When JavaScript is **disabled**

* When ActiveX is **disabled** and JavaScript **re-enabled**

* When Google Chrome (Version 50.0.2661.86 (64-bit)) is used to visit example.com
